Working with the Orthodox Directory

A summary for your parish council or board · orthodoxdirectory.com/work-with-us/

What this is

The Orthodox Directory is an independent, free directory of Orthodox parishes and festivals. It is not affiliated with any jurisdiction, diocese or parish. Separately, we build and run optional paid tools for parishes: websites, newsletters, calendars, and tools that turn a parish's own documents into a searchable board wiki. A directory listing, a festival listing and a basic starter website are free and are never conditional on buying anything.

How it works

1. **Reach out and consult.** A free call about your parish's needs, with the time confirmed by email first (phone in the US and Canada, WhatsApp elsewhere, or a video link). No obligation.
2. **Written scope and quote.** What we would build, the cost, and what we need from you.
3. **Board decision.** Taken on your own schedule. We will answer any questions your board has.
4. **Stripe invoice after you agree.** All add-ons appear on one combined monthly invoice. Nothing is charged before then.
5. **Build and review.** A person at your parish approves the result before it goes out; your priest has the final say on anything published in your name.
6. **Month to month.** No long-term contract. You can stop at any time.

What the board would be approving

- A one-time setup fee plus a monthly fee where noted, exactly as written in the quote. Bundle 2 or more add-ons and save 15% on the monthly total.
- Only what is listed in the written scope. Anything else is a separate quote.
- No long-term contract, and the free listing and starter site stay free either way.

Starting prices (the written quote is final)

Custom parish website	**$250 setup + $25/mo**
Parish newsletter	**$150 setup + $40/mo**
Board Room Wiki and Governing Book	**$200 setup + $25/mo**
Parish & board member calendar	**$150 setup + $20/mo**
Online giving / donation page	**$150 setup + $15/mo**

Parish gift shop / online store	**Coming soon**
Festival & fundraiser listing with signup	**$50 setup + $10/mo**

Bulletin Builder	**$100 setup + $15/mo**
Event Planner	**$150 setup + $20/mo**

Prices are in US dollars, and each parish's written quote states the final amounts. Setup includes everything needed to start; nothing is charged before your board approves the quote.

If your parish is outside the United States

Our prices are set in US dollars and are the same for every parish. The amounts below are approximate, using exchange rates from 2026-11-17. For a parish outside the US, the written quote states the exact amount in your own currency, fixed on the day it is issued, and the Stripe invoice matches it.

Your documents and privacy

Tools that use your documents, such as the Board Room Wiki and Governing Book, run on a private store set up for your parish alone. Each parish has its own database and file storage; sign-in is by one-time email link with viewing, editing and administrator roles; nothing is public unless an administrator marks it public; AI output stays a proposal until a person at the parish confirms it; and the parish can ask for an export or deletion of everything held.

Stored data is encrypted with AES-256 and moves over TLS, provided by our hosting provider, Cloudflare, which holds SOC 2 and ISO 27001 certifications and is a PCI DSS Level 1 service provider. We hold no security certification ourselves and have not yet had an independent security audit.

> **Suggested wording for a board motion:** “That the parish authorize [officer] to hold a consultation with the Orthodox Directory regarding [tools], and to bring a written scope and quote to the board for approval before any payment is made.”
